Number bonds within 20

6 practice questions

1. Complete: 6 + __ = 10.

Count on from six: seven, eight, nine, ten.

Answer: 4

2. Complete: 10 + __ = 16.

Sixteen is ten and six.

Answer: 6

3. Complete: 8 + 2 = __.

Eight and two make ten.

Answer: 10

4. Write the same bond in the other order: 5 + 7 = 12.

The same parts still make twelve.

Answer: 7 + 5 = 12.

5. Complete: 9 + __ = 20.

Nine and one make ten; another ten makes twenty.

Answer: 11

6. Luca says 4 + 6 = 10 but 6 + 4 = 11. Explain the mistake.

The parts are the same; only their order changed.

Answer: Both sums are 10.
