Continuing and making patterns

6 practice questions

1. Repeat circle, square. Add the next two shapes: circle, square, circle, square.

Start the next complete pair.

Answer: Circle, square.

2. Repeat triangle, circle, circle. Add two shapes after triangle, circle, circle, triangle.

Finish the second three-item unit.

Answer: Circle, circle.

3. Draw two repeats of square, triangle.

Use the same order both times.

Answer: Square, triangle, square, triangle.

4. Make three repeats of clap, clap, stamp. How many actions are there?

There are three actions in each of three complete units.

Answer: 9 actions.

5. Choose your own two-shape unit and draw three repeats.

Accept any two-shape unit repeated three times in the same order.

Answer: For example, circle, triangle, circle, triangle, circle, triangle.

6. Tia repeats square, circle. She writes square, circle, square, square. Change one shape to fix it.

The fourth item must finish the second square, circle pair.

Answer: Change the last square to circle.
