Left/right/forward/back

6 practice questions

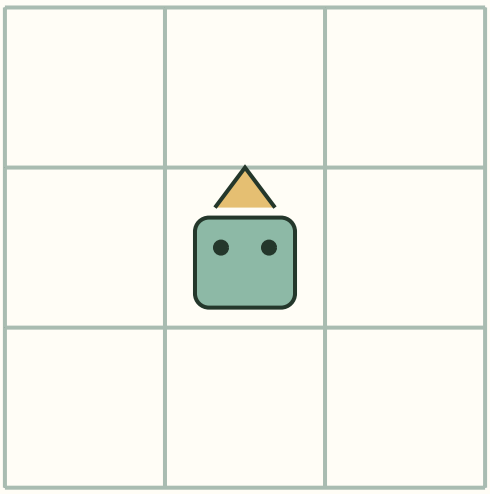

1. In the park picture, which object is left of the tree?

Use your left while looking at the page.

Answer: The bench.

2. The pictured robot faces up. Which way does it move one step forward?

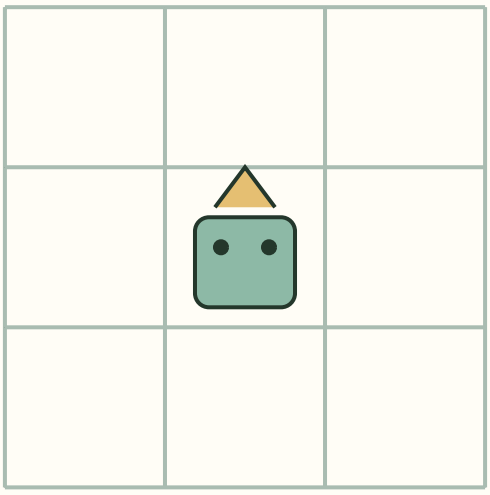

The robot faces the top of the page.

Forward follows its facing direction.

Answer: Up one square.

3. The pictured robot faces up. Which way does it move one step back without turning?

The robot faces the top of the page.

Back is opposite to forward.

Answer: Down one square.

4. A robot faces left on the page. Which way is forward?

It moves in the way it faces.

Answer: Left.

5. A robot faces the bottom of the page. Which way is back without turning?

Back is opposite to the way it faces.

Answer: Up the page.

6. Draw an arrow pointing right. Draw a dot one step to its left, using the page as the viewpoint.

Keep the page viewpoint clear; do not confuse the arrow's direction with page left.

Answer: Answers vary: the dot is left of the arrow.
