# Comparing prices

6 practice questions

**1.** A green pen costs 2 dollars. A purple pen costs 3 dollars. Which costs less?

2 dollars is less than 3 dollars.

**Answer:** The green pen.

**2.** A ball costs 12 dollars and a skipping rope costs 9 dollars. Which costs more?

12 is greater than 9.

**Answer:** The ball.

**3.** One book costs 7 dollars and another costs 10 dollars. What is the price difference?

$10 - 7 = 3$.

**Answer:** 3 dollars.

**4.** Two glue sticks each cost 4 dollars. What is the difference in their prices?

$4 - 4 = 0$.

**Answer:** 0 dollars.

**5.** Put these prices in order from lowest to highest: 8 dollars, 3 dollars, 6 dollars.

Compare the numbers 3, 6 and 8.

**Answer:** 3 dollars, 6 dollars, 8 dollars.

**6.** A drawing pad costs 6 dollars and a notebook costs 9 dollars. Sam says the notebook costs 15 dollars more. Explain the mistake.

How much more asks for $9 - 6$, not $9 + 6$.

**Answer:** Sam added the prices. The difference is 3 dollars.
