1/2 coins and notes

6 practice questions

1. How much are two 1-dollar coins worth?

1 + 1 = 2.

Answer: 2 dollars.

2. How much are four 2-dollar coins worth?

Count 2, 4, 6, 8.

Answer: 8 dollars.

3. Count a 5-dollar note, a 2-dollar coin and a 1-dollar coin.

5 + 2 + 1 = 8.

Answer: 8 dollars.

4. Count two 10-dollar notes and one 5-dollar note.

10 + 10 + 5 = 25.

Answer: 25 dollars.

5. Make 5 dollars using only 1-dollar and 2-dollar coins. Give one way.

2 + 2 + 1 = 5; other valid combinations are accepted.

Answer: For example, two 2-dollar coins and one 1-dollar coin.

6. Ava has three 1-dollar coins. Ben has two 2-dollar coins. Who has more money, and by how much?

Ava has 3 dollars; Ben has 4 dollars; 4 − 3 = 1.

Answer: Ben has 1 dollar more.
