Practice worksheet | Measuring

Uniform informal units

Name: _____ Date: _____

6 practice questions

1. A ribbon is covered exactly by 7 equal tiles. What is its length?

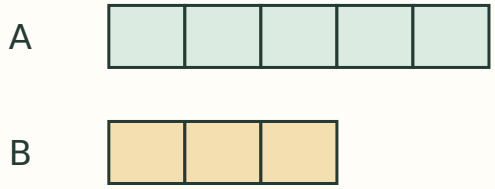

2. A bucket takes 6 full cups to fill. Every cup is the same. What is its capacity in cups?

3. A box balances with 8 equal counters. What is its mass in counters?

4. Nina measures with one long clip and three short clips. Why is 4 clips not a fair length measure?

5. Three tiles overlap while measuring a strip. Should you keep the count or measure again?

6. How many equal blocks cover row A?

Both rows start together. Every block has the same size.
