Practice worksheet | Measuring

Comparing measurements

Name: _____ Date: _____

6 practice questions

1. Ribbon A is 8 tiles long. Ribbon B is 5 of the same tiles long. Which is longer?

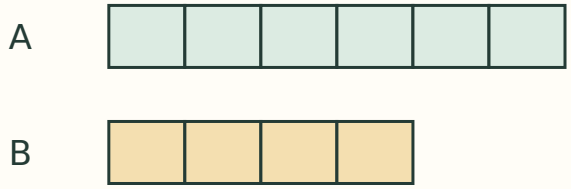

2. A jar holds 9 scoops. A bowl holds 6 of the same scoops. How many more scoops does the jar hold?

3. Toy A balances with 4 equal counters. Toy B balances with 7 of the same counters. Which has less mass?

4. Order these lengths from shortest to longest: 6 blocks, 3 blocks, 8 blocks. All blocks match.

5. A board is 6 hand spans long. A shelf is 5 shoe lengths long. Can you decide which is longer from these counts?

6. How many blocks longer is row A than row B?

Both rows start together. Every block has the same size.
