Familiar maps

6 practice questions

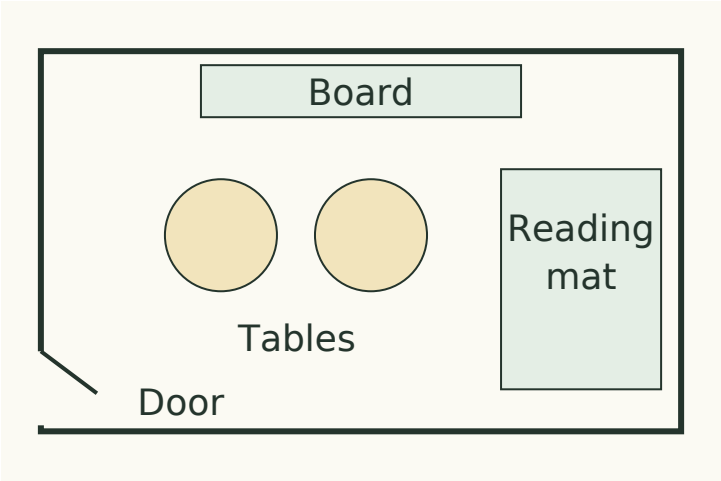

1. On the classroom plan, name the feature along the top wall.

The long narrow rectangle at the top is labelled Board.

Answer: The board.

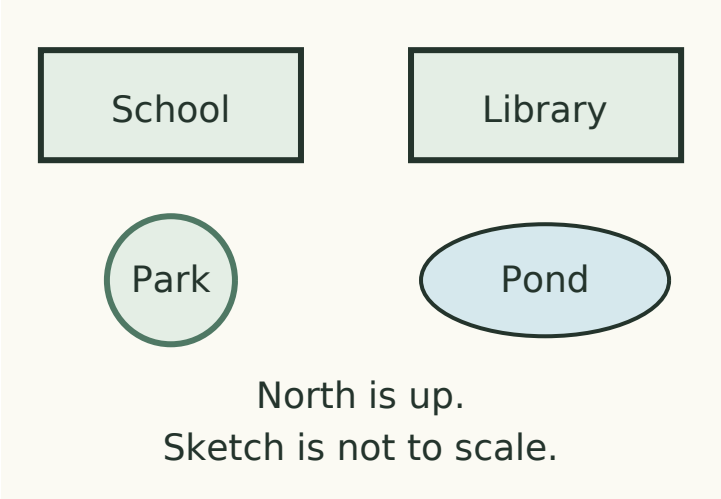

2. Where is the door on the classroom plan: top right or bottom left, as the reader sees it?

Read the Door label near the lower-left corner.

Answer: Bottom left.

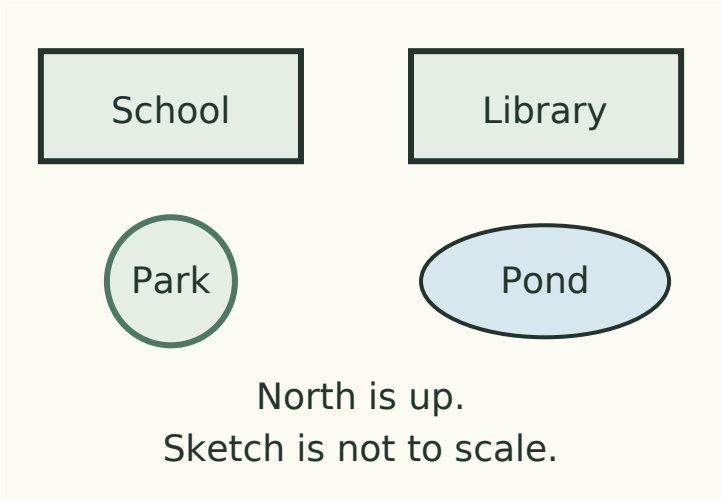

3. On the four-place map, name the place to the right of the school on the page.

Both are in the top row.

Answer: The library.

4. Does this map let you find the exact number of metres from the school to the pond? Explain.

The map says it is not to scale and gives no distances.

Answer: No.

5. A map key says a small star means a drinking tap. What does a star on that map show?

Use the meaning given in that map’s key.

Answer: A drinking tap.

6. Draw a simple plan of a room. On your page, put a door at the bottom, a table in the middle and a reading corner on the right.

Check all three positions: door below, table central, reading corner to the right.

Answer: Any labelled bird’s-eye plan placing those three features as stated.
