Practice worksheet | Patterns and number rules

Decisions in number rules

Name: _____ Date: _____

6 practice questions

1. Use this rule once: below 10, add 2; otherwise, subtract 3. Start at 5.

2. Use the same rule once. Start at 13.

3. Use the same rule once. Start at 10.

4. Use the same rule twice. Start at 8.

5. A different rule says: above 20, subtract 5; otherwise, add 5. Apply it once to 20.

6. A child starts at 12 and adds 2 using the first rule. Explain the mistake.
