Directions on maps

6 questions | 7 marks

Equivalent correct methods earn the corresponding marks.

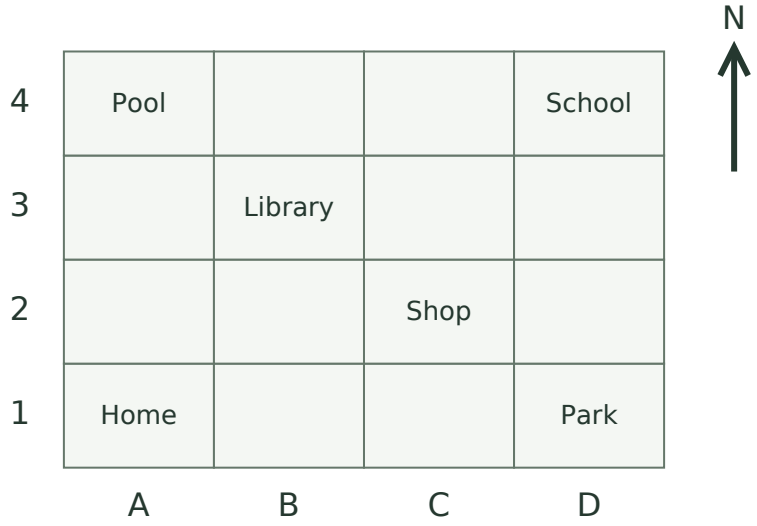

1. What direction is Home from Park? [1 mark]

Home lies left of Park on the north-up map.

Answer: West.

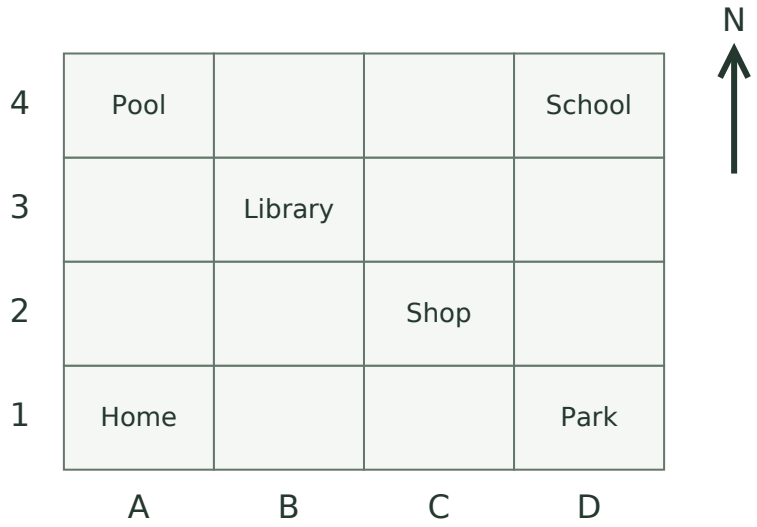

2. What direction is School from Park? [1 mark]

School is above Park in column D.

Answer: North.

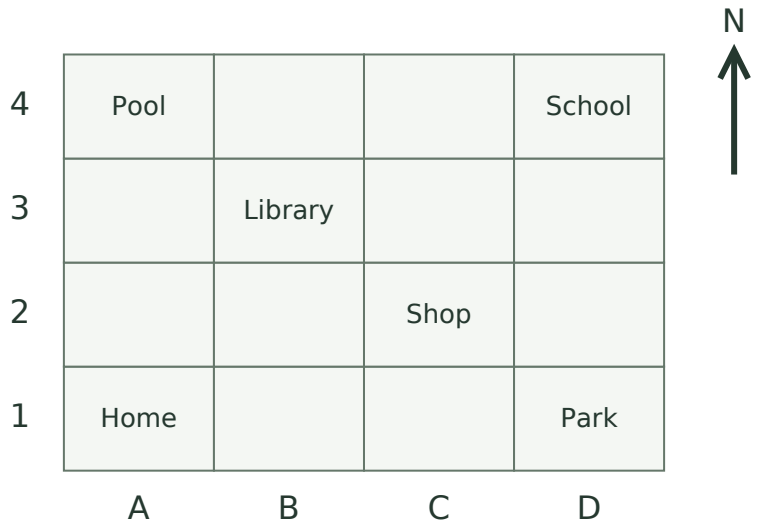

3. What direction is Park from School? [1 mark]

Park lies below School.

Answer: South.

4. What general direction is School from Home? [1 mark]

School lies both north and east of Home.

Answer: North-east.

5. Which direction is opposite north-west? [1 mark]

Reverse both north and west.

Answer: South-east.

6. Why should you check a north arrow before using the top of a map as north? [2 marks]

The arrow specifies the direction accurately.

Answer: A map may be rotated, so its top is not always north.
